

BAE Systems Engineering Taster Weeks Warton

We are writing to you on behalf of the team organising the 2018 Engineering Taster Weeks hosted by BAE Systems Air Business Unit.

Following the success of previous years, we will once again be running our Taster Weeks in the summer of 2018. The Engineering Taster Weeks are aimed at developing young people's perceptions of engineering whilst providing a unique insight into the world of aerospace and aviation.

We will be holding two Taster Weeks:

- Monday 9 July to Friday 13 July 2018
- Monday 16 July to Friday 20 July 2018

Both Taster Weeks will be held at BAE Systems' Warton Aerodrome in Lancashire, with BAE Systems providing accommodation for the week. All students who are 16-18 years old at the time of the Taster Weeks can apply and the application window will be opening on the 9 of February 2018 and will close at 13:00 on the 16 of April 2018.

Please find attached a poster for distribution around your school, and a presentation containing more information about the taster weeks. More information on the taster weeks and how to apply can be found on our website: www.baesystems.com/en/etw/warton.

Would it be possible for you to inform any of your students who you think may be suitable for this fantastic opportunity? If possible, could you include a passage about our Engineering Taster Weeks in your termly newsletter (highlighting the key dates in order to raise the profile of the event and encourage more applications)?

If you would like some more information regarding any aspect of the above, please do not hesitate to contact us at: etw.warton@baesystems.com.
